Requirements for Theme Park Entry

To enter a theme park, Guests (ages 3 and older) need both valid admission and a theme park reservation for the same day and same park they want to visit. Park reservations are limited in number, and subject to the availability of park reservations allocated to park tickets as determined by Disney and theme park capacity. Park reservations are not guaranteed. Guests with a multi-day ticket must make a park reservation for each date of their visit. Guests with a Park Hopper ticket must make a park reservation for the first theme park they plan to visit to begin their day; they can cross over and switch between parks on the same day (subject to availability). Please note that reservation requirements are subject to change. The ability to visit a park is subject to the park's capacity limitations, operational hours, closures and other restrictions, and is not guaranteed. A ticket does not guarantee park entry, even on dates when a ticket is not blocked out.

Park entrance lanes use facial recognition technology. If you don't wish to participate, look for the signage at the top of each entrance lane at the main entrance of each park and select a lane marked with the designated icon, indicating it does not use this technology. Learn more about Facial Recognition at the Disneyland Resort.

Applicable ticket and valid photo identification confirmation are required for same day readmission to same park, and if applicable, entry to the other park.
